

On December 17th, 2021 **Mother Abbess Gemma Punk** of the monastery of Regina Mundi in Hungary will have achieved an accomplishment, perhaps the only one in the world and in the history of the Church, of **75 years as superior of the community Regina Mundi**. She was elected superior at the age of 19 years old, the very day of her profession, by the community of Cistercian nuns founded in 1946, immediately following the Second World War: the community that some years later had to live clandestinely on account of the Communist regime. Mother Gemma will celebrate this great Jubilee in the intimacy of her community, with the Abbot General in attendance, but all the Order will be united with her in thanksgiving to the faithful Lord and in gratitude to Mother Gemma for her charity and wisdom as mother and teacher!
